## PRESS RELEASE

### **New Windows & Doors in Gevgelija Primary School**

USAID, as a part of the U.S. mission in Macedonia, is investing \$3 million in school renovations throughout the country. In the "Krstе Misirkov" Primary School in Gevgelija, new windows were installed. The completion of the project was celebrated with a ribbon-cutting ceremony on May 20th.

"It's great to see how the school community and Municipality have worked together in partnership with the Primary Education Project to provide a better environment for education and the development of children" said U.S. Education Specialist, Natasa Murdzeva Buleska. "School renovations are only a part of how the United States is working to improve education in Macedonia."

The renovation component of the USAID Primary Education Project supports the creation of better learning environments and decentralization of school facilities to municipal governments. The project also works to increase the access to and use of information technology and to improve the quality of math and science education in Macedonian primary schools.

#### NOTE TO EDITORS:

**The American people, through USAID, have invested nearly \$500 million in Macedonia since 1993.** USAID is implementing projects that create jobs, reduce corruption, and prepare Macedonian students for the workforce. These initiatives improve the quality of life and support Macedonia's transition to a stable and prosperous democracy. USAID provides economic and humanitarian assistance in more than 100 countries.
